DEWEY SAFE AT MANILA

He Is In Full Control Of City and Harbor.

WILL RESUME HIS CRUISE WHEN COAL ARRIVES.

Washington, March 6—Special—The indirect news from Manila, which comes from British sources by way of Singapore, satisfies officials here of the safety of Commodore Dewey and his squadron. There has, in fact, never been any doubt as to his ability to look after himself, but the absence of definite news has naturally caused some anxiety. It now appears that he has simply used the discretion reposed in all naval commanders to take such steps as are necessary to clinch a victory they have won. Commodore Dewey has not only captured Manila but has taken charge of the government, and with the aid of native insurgent leaders has given Spanish authority there its coup de grace.

Mines the Only Danger.

The vessels of the Asiatic squadron are as safe as if they were anchored in an American port, barring the possibility of an accident from running foul of a Spanish mine in Manila harbor that may have been overlooked. This is barely a possibility, however, as the greatest precautions against such a mishap have been taken. There is no Spanish fleet in the vicinity of the Philippines save the battered remnants of the squadron so severely treated by Dewey last week, and these are more interested in seeking a place of safety than in efforts to meet again the formidable foe that gave them such a drubbing.

Dewey's only danger is the exhaustion of his coal supply. He has secured a small amount—enough for emergencies of the near future—at Manila, but may have to wait the arrival of full supplies from the United States before undertaking a long cruise in waters where he may at any time encounter a formidable foe.

In Full Possession.

London, May 6—Special—Confirmation of the report from Singapore that the Americans are now holding Manila and that Dewey is conducting the government of the town, is expected hourly. The news which leads to this belief reached London in a private dispatch from Hong Kong. It is the first news from Manila that does not bear the stamp of Spanish authorship. How the news reached there is not stated, but it is possible that it came over in some swift merchantman which was lying in the harbor during the engagement and which set sail before Dewey started the dispatch boat.

Canary Islands in Danger.

London, May 6—Special—A story published here asserts that the Washington government has advised Great Britain to remove its subjects from the Canary Islands. The conclusion drawn from this is that Sampson is on his way to capture those islands and secure a base from which to operate against Spain.

Washington, May 6—Special—It has been ascertained that the report of the opening of the Manila cable is unfounded.

Tender Allegiance.

Washington, May 6—Special—The state department this morning received a dispatch from Consul Wildman at Hong Kong, the first word received from him since the battle at Manila. The dispatch read: "Cortes, Rosario, Donzaga, and Banza, the wealthiest families of Manila, tender allegiance and petition for citizenship."

A Spanish Canard.

Washington, May 6—Special—The report that the Spanish Cape Verde fleet had reached the Canaries is regarded as a Spanish canard. The fleet, it is thought here, is now in the vicinity of the Barbadoes, where it will try to intercept the Otegon.

The Landing in Cuba.

Tampa, May 6—Special—Troops will not be transported to Cuba until early next week. The landing place has been selected, and it is said to be within forty-eight hours from here by steamer.

FIRING OFF THE COAST

Heavy Cannonading Heard At Sea Off Charleston.

IT IS THOUGHT SPANISH AND AMERICAN SHIPS HAVE MET.

Charleston, S. C., May 6—Special—Heavy firing was heard off shore today. It was thought at first that the forts were testing their guns, but it has since been learned that these forts were not trying their cannon. The thundering, which lasted two hours, appeared to be about twenty miles off shore.

As the vessels of the Spanish fleet from Cape Verde Islands are in this vicinity, it is supposed they have encountered some American men-of-war, and that an engagement has taken place.

Easier Said Than Done.

Madrid, May 6—Special—It is reported that the government has decided to send the fleet from Cadiz to drive the Americans out of the Philippines and then bombard California ports.

WILL MARCH ON SATURDAY NIGHT

ONE REGIMENT OF WISCONSIN TROOPS ASKED FOR.

Probability That They Will Start South Before Sunday Morning—Mustering in Goes Steadily Forward—The Men in Good Spirits—Visitors Expected Sunday.

Camp Harvey, Milwaukee, May 6—[Special]—It is probable that one regiment will be called from here Saturday night. Capt. Duck received a telegram this morning asking how many men he could have mustered in by that time. He answered that he could have one regiment ready to start at a moment's notice. This indicates that the men will be called to move at once.

The work of mustering goes on steadily. New shoes were distributed to the men this morning. The weather is fair and dry, but quite cold. The men are in better spirits. Excursions from all parts of the state will be run here Sunday, and it is expected that 40,000 people will be here.

BREAD RIOTS IN ITALY

Several Members of a Florence Mob Are Killed By The Troops.

ROME, May 6—[Special]—A serious bread riot has occurred near Florence. Four of the rioters were killed and a large number wounded.

LEFT HOME TO GET MARRIED

A Loving Couple Came From Illinois to Join Their Fortunes.

The strict marriage laws of the state of Illinois resulted in a couple coming all the way to this city yesterday from Franklin, Ill., for the purpose of getting married.

At 3 o'clock in the afternoon the happy event took place in the Congregational church parsonage. Rev. Mr. Denison officiating. The groom, who is a painter by trade, gave the name of Salmon L. Austin, while the bride, whose name is Emma L. Strawn, said her home was in Franklin. They returned home on the evening train.

WAITING FOR THE RESULTS

Merchants Are Not Patronizing Express Companies Largely at Present

Supt. S. S. McDuffie, who looks after the interests of the American Express company in the states of Wisconsin, Illinois, Michigan and Minnesota, was in the city today on business connected with the local office.

In speaking of the present war Supt. McDuffie says that he believes it has affected business with his company for the reason that large shippers are holding back on their orders, preferring not to fill many of them till they know the outcome of the present trouble.

FRENCH SHIP IS CAPTIVE

Twice Tried to Run the Havana Blockade.

CARRIED MUNITIONS AND STORES FOR SPANISH ARMY.

Key West, May 6—Special—A French trans-Atlantic liner was captured by American war vessels last night. She tried to run the blockade twice.

The steamer's name is the La Fayette. She had aboard several Spanish officers, and arms and ammunition for Blanco.

Kingston, Jamaica, May 6—Special—Four American warships have been seen off the eastern end of Cuba. They are probably part of Sampson's fleet, and are thought to be on their way to Porto Rico.

Washington, May 6—Special—The state department officials say that if the La Fayette attempted to run the blockade she destroyed her neutral rights, and will have to take her chances in the admiralty court. When the steamer was caught in the second attempt to run the blockade, the Wilmington fired two solid shots across her bow. This brought her to terms, and the Wilmington took her from under the guns of Morro Castle, which did not fire. The La Fayette has an enormous cargo of ammunition, guns and provisions for the Spanish army. The capture may cause complications with France.

More Prizes Captured.

Key West, May 6—Special—The Spanish schooner Orient was brought in as a prize this morning.

Key West, May 6—Special—The Spanish schooner Antonio Suarez was towed into port last night by the Uncas.

Norfolk, May 6—Special—It is stated this morning that the Mosquito fleet will sail for Key West tomorrow.

Bombardment of Manila.

London, May 6—Special—A dispatch from Shanghai says the Japanese government has received an account of the battle at Manila. It says after disposing of the fleet Dewey bombarded Manila, and the city was soon on fire in many parts. Great loss of life is reported to have occurred among the Spanish residents of the city.

Cable Is Repaired.

Washington, May 6—Special—At noon the government was notified that the Manila cable was open. Important dispatches from Dewey are expected momentarily.

Cuban Leader Killed.

Key West, May 6—Special—News has been received here that Col. Juan Delgado, the famous Cuban leader, has been killed in an engagement near Havana.

ALL THE NEWS OF
THE BADGER STATE

INSURANCE UPON CHARITABLE INSTITUTIONS.

Decreased Demand For Lumber One of the Results of War—Personal Injury Suits to Be Settled—Work Begins on Green Bay Reformatory—New Electric Line.

Madison, Wis., May 6.—The State Board of Central has placed \$1,000,000 of insurance on the state property in its charge. This includes the buildings and contents of the various state charitable, penal and reformatory institutions. The insurance covers 85 per cent, of the value of the buildings, and 15 per cent of the value of the contents.

The policies are for three years, and the rate is a low one. The amount of insurance placed on the different institutions is as follows: Menota State Hospital for the Insane, \$225,000; Northern Hospital for the Insane, \$300,000; School for the Deaf, \$75,000; State School for the Blind, \$75,000; Industrial School for Boys, \$100,000; State Public School for Dependent Children, \$50,000; State Prison, \$100,000; State Home for the Feeble Minded, \$75,000.

LUMBER MARKET IS DULL

The War Has Lessened the Demand For the Product

Marquette, Wis., May 6.—The lumber market this week has been quiet and few sales were made. There is no doubt that the war affected it seriously, especially in the east, but the big victory at Manila has restored confidence and everything has assumed a better tone. The demand from now on promises to be good.

The shipments to Buffalo this week will amount to about 1,500,000 feet. This is all last year's stock and none of this year's cut will go east until about June. The amount of lumber in the yards here is fast being depleted and they look very bare. All the mills are now running except the Sloss mill on this side of the river, which is still short of logs.

Superintendent Stephenson, of the boom company reports that the logs will begin coming out of the upper streams next week. Heavy rains the past week made the lumbermen look happy and the danger of a log shortage has passed. All the logs so far have come from the Pike, Popple and the main river. Next week they will begin to appear from 100 to 150 miles up out of the Pine, Bruin, Fennee and Paint rivers. At present the boom company is sorting only about 1,800 feet a day, but this will be increased next week, when another gap will be worked.

WILL SETTLE THE SUITS

Damage Cases Against the Northwestern Will Be Taken Out of Court

Neenah, Wis., May 6.—It is probable that all of the cases pending against the Chicago & Northwestern Railway brought by the victims of the Y. P. S. O. E. excursion train wreck last year, will be settled before they come to trial. All of the suits are for \$25,000 damages. In the circuit court at Appleton two cases were settled for \$5,000 and \$6,000 each. Attorney J. O. Berwin, of this city, has two cases in charge for victims in the same wreck, Viola Smith, of Appleton, and Francis Wheeler, of this city, who sued for \$25,000 each, and which are on the calendar in the Winnebago county circuit court at present, but which will presumably be settled.

A Hundred Reasons

Can be given why Stuart's Dyspepsia Tablets are the best and most effective cure for every form of indigestion.

They are in tablet form, which retains their good qualities indefinitely, while liquid preparations become stale and useless with age.

They are convenient, can be carried in the pocket and taken when needed. They are pleasant to the taste.

After each meal dissolve one or two of them in the mouth and, mingling with the food, they constitute a perfect digestive, absolutely safe for the most sensitive stomach.

They digest the food before it has time to ferment, thus preventing the formation of gas and keeping the blood pure and free from the poisonous product of fermented, half-digested food.

Stuart's Dyspepsia Tablets make the complexion clear by keeping the blood pure.

They increase flesh by digesting flesh-forming foods.

Stuart's Dyspepsia Tablets are the only remedy designed especially for the cure of stomach troubles and nothing else.

One disease, one remedy, the successful physician of today is the specialist, the successful medicine is the medicine prepared especially for one disease.

A whole package taken at one time would not hurt you but would simply be a waste of good material.

Over six thousand men and women in the state of Michigan alone have been cured of indigestion and dyspepsia by the use of Stuart's Dyspepsia Tablets.

Sold by all druggists at 50 cents per package.

RIOTING IS CONTINUED.

Outbreaks in the Provinces Have Almost Assumed the Proportions of a Revolution—Many of the Rioters Killed and Wounded.

London, May 6.—The Vienna correspondent of the Daily Telegraph says: "Apartments have been reserved at a hotel here for the queen regent of Spain in case she arrives before apartments have been prepared for her in her brother's palace."

"Telegrams from the Austrian ambassador at Madrid, Count Dubsky, indicate that the queen regent is only waiting for a suitable moment to quit Spain without detriment to the interests of her son."

SPANISH CRISIS SERIOUS.

Plotting of the Last Few Days May Become a Revolution.

Washington, May 6.—Dispatches indicate that the crisis in Spain has become intensified. The people appear to want Weyler and Robledo in charge of affairs, and should the military clique decide to abandon the ministry the Sagasta government would go to pieces in an hour.

The queen regent is rapidly losing the little popularity she has, and is now insolently referred to as "that Austrian woman."

Meanwhile the trouble in the provinces increases and unless the duties on breadstuffs are speedily reduced the rioting may become a revolution. Thus far a number of persons have been killed and wounded and several buildings wrecked.

In the financial world all is chaos. Runs on banks everywhere prevail, and the funds withdrawn are being hoarded.

The speech of Lord Salisbury in London has enraged the Spaniards. They discern that with Great Britain in sympathy with America the other European powers will hesitate to act for Spain. The outlook in Madrid grows darker every hour that passes.

WARSHPES WITHOUT AMMUNITION.

London, May 6.—The Paris correspondent of the Daily Mail says: "I hear on indisputable authority that five of the Spanish warships, including the battleship Pelayo and the fine cruiser Alfonso XIII., have not yet been supplied with ammunition. This was the cause of the delay in the sailing of the Cape Verde fleet, and will probably compel it to return to Cadiz."

Spain Trying to Raise Money.
New York, May 6.—The Evening Post's London correspondent cables as follows: "The Spanish gold premium is nearly 80 per cent. I learn privately that the Spanish government is trying to place treasury bills in London, offering as much as 15 per cent, but at present with no measure of success."

WHEAT SELLS AT \$1.50.

Highest Price in Ten Years Reached on Board of Trade.

Chicago, May 6.—The oldest speculator on the board of trade never before saw the wheat market act as it did yesterday, taking the world over. Prices were on the boom. The fancy figures that the most authentic bulls have predicted were realized at the close, when May touched \$1.50, and was only prevented from going higher by Letter's sales. Early in the morning sales were made from \$1.31 to \$1.37. It took little buying to send the price up from \$1.40 to \$1.50. Not more than 750,000 to 1,000,000 bushels were traded in, despite the advance of 20 cents from Wednesday's close. From the low point Tuesday the price has advanced 33 cents. During the same time July has advanced 11 1/2 cents; the top price yesterday was \$1.03 1/4, and the close \$1.02 1/4, a gain of 3 1/2 cents for the day. There was 47 1/2 cents' difference between the price of May and July, and 65 cents between May and September.

May Defeat the Bond Measure.

Washington, May 6.—The senate committee on finances as a body was not in session Thursday, having adjourned over until tomorrow in order to permit the democratic members to prepare a substitute for the bond provision of the bill. There is now no doubt that there will be a majority in committee against the bond feature, as Senator Jones of Nevada has taken a position against it, and Senator Wolcott has indicated that he will oppose it if an acceptable substitute can be secured. The republican members of the committee, with the exception of Senator Wolcott, were in conference over the situation for several hours.

Arbitration Bill Is Passed.

Washington, May 6.—The house Thursday disposed of two important measures. The Alaskan land bill, extending the homestead laws to and providing for certain railway rights of way in the district of Alaska, as amended by the senate and agreed upon in conference, was passed. The labor arbitration measure, providing for the arbitration of labor disputes between employees and certain common carriers, a bill which had received very wide endorsement by labor organizations throughout the country, received the approval of the house.

To Strengthen Basket.

To strengthen basket chairs, clothes baskets, etc., they should be soaked in cold water for several hours and then dried in the sun once every six months. This treatment would make them last considerably longer than they would do in the ordinary course of events.

COLD CURE

Omical Collection Agency.
From the London Evening News: In Holland bills are often paid through the medium of the postoffice. It enables a man living, say, in Rotterdam, to get a small bill collected in any provincial town without the often expensive and tedious interference of a banker or agent. For that purpose he hands his bill to the nearest postoffice. It is sent to the place where the money is to be collected. After the collection a draft is forwarded to the payee by the office where he deposited the bill and where he gets his cash and the bill duly receipted on payment of a small commission, which is payable in advance.

Something Unusual.

WEATHER FORECAST

Chicago, May 6. — [Special] —
Forecast for Wisconsin:
Fair tonight; Saturday, warmer.

GENERAL GEORGE M. RANDALL

President McKinley acted wisely in
appointing Lieutenant Colonel George
M. Randall, of the Eighth Infantry, a
Brigadier General, for Uncle Sam has
no better soldier on the rolls. Gen.
Randall's record is a brilliant one—
dating from the day he enlisted as a
private in a Pennsylvania regiment,
in 1861. A West Point education did
not help Gen. Randall win his spurs,
but he had "the stuff in him," and
worked his way up on the field. Not
only did he serve his country faith-
fully and well in the rebellion, but
rendered brilliant services against the
Indians in later years. In his book,
Gen. Crook, the noted Indian fighter,
paid Gen. Randall a very high com-
pliment.

Janesville people will be glad to
hear of Gen. Randall's promotion, as
it is distinctively a reward of merit.

THE NEW MAJOR GENERALS

There is inspiration in the list of
major generals recently appointed by
President McKinley, but it is espe-
cially gratifying to note that the list
begins and ends with the names of
gallant soldiers who fought bravely
and well, against the inevitable—for
the "Lost Cause." General Fitzhugh
Lee and General "Joe" Wheeler were
Confederates but now they are to
fight for the flag they fought in '61.
The nation is at war and all the
people are rallying to its defense. As
Stephen A. Douglass said "There can
be but two parties in this country—
Patriots and Traitors!" and the south
will do its duty as bravely as the
north. All the old bluffers are gone
and the United States presents a
solid front to the enemy.

"One flag, one home, one heart, one hand,
One nation, indivisible!"—Holmes.

Beloit Free Press: As the national
guard was enlisted because it is com-
posed of disciplined and well drilled
men, why wouldn't the same apply
with equally good results in making
up the republican state ticket this
summer? The "boys" are all "dis-
ciplined" and experienced, and if given
the opportunity would undoubtedly
re-enlist for the term of two years to a
man. They have all been good "sol-
diers" during their three years' term,
which is a guaranty that they would
serve the state excellently well during
their "veteran" term of two years.
Why should not their "re-enlistment"
be the best method of preparing for
the great campaign of 1900?

Japan is watching the war between
the United States and Spain with deep
interest. The war, the Japanese be-
lieve, will result in the downfall of
Spanish power in the east, and the
freedom of the Philippine islands.
Hence, Japan's sympathy is with the
United States, and the recent war
with China demonstrated that the Japs
are good people to have on our side.

Charles M. Peck, the Washington
correspondent of The Chicago Even-
ing Journal, says, in one of his dis-
patches, "Congressman Cooper, of
Wisconsin, is one of the strongest re-
publican leaders of the war party in
the house and one of the finest gentle-
men upon the floor."

The "Course of Gold" theatrical com-
pany has stranded and the members
who are now counting ties would not
object to being "courses" to the extent
of a ticket to Chicago and three ham
sandwiches a day.

President McKinley will not appoint
all the brigadier generals at once. He
proposes to keep a few places open in
order that colonels who distinguish
themselves may be advanced.

Two thousand men, mostly Greek,
have applied to the American consul
at Constantinople for enlistment in the
United States army and navy.

NEW WOLF BOUNTY LAW

A Change in Existing Legislation Would
Be Beneficial

The board of supervisors of Winne-
bago county, Ill., have just adopted a
wolf bounty measure that seems to be
a good plan, and one which the super-
visors of Rock county would do well to
consider.

It provides for the payment of a
bounty of \$5 on old wolves and \$2 for
cubs, and making the bounty on young
wolves \$4 when presented with the
scalp of the old wolf.

Wolf hunters in Winnebago county
have openly stated to the county offi-
cials that they did not have a desire
to kill the old wolf, as he was a source
of revenue. In Rock county reports
show that the bounties are mainly on
young wolves, the old ones not being
hunted down as a rule.

Smith and husband, Frank L. Smith,
to Ida E. Lane, the price being \$10,-
000. The farm is composed of 100
acres of as fine land as is to be found
in the country.

RULES ARE STRICT AT CAMP HARVEY

**SOLDIERS ARE NOT ALLOWED
MUCH FREEDOM.**

Only the Quartermasters Are Allowed to Leave Camp, and All Others Must Have a Pass—Janesville Visitors Are Always Welcome—Do Not Know When They Leave.

Camp Harvey, May 5.—The guard details of today show Sergeant Brown, Musician Glennon and Private Collins on for provost, and Privates F. Goryell, Dixon and Sussman for regimental.

None but quartermaster sergeants are allowed to leave camp of the enlisted men. They must have a pass. This permits the officers to have every man present for duty at all times and tends to keep the minds of the boys more on the work in hand.

Janesville people continue to visit us and among those who dropped in today were Misses Etta Brown and Mae Dewey and Messrs. George Simpson and W. H. Greenman. The latter were accompanied by Gen. J. B. Doe. Our Milwaukee friends are awaiting better weather before a general turnout. But those who do come are welcomed and treated courteously, not entirely because they seldom visit us empty handed.

The medical examination has not reached the First Regiment at this writing, nor can I learn just when we must expect it. The board is working rapidly, however, and we hope the strain of anxiety, as to our passing the tests, may be soon relieved.

A half-dozen kazooes arrived in camp this afternoon and some of the boys are already practicing up for that little German band.

No sickness is reported today in our quarters. The night was very cold and rainy, but today is clear.

A Welcome Donation.

A box arrived, today, from the Knights of the Glads, containing genuine home made dainties. It will be very welcome to the boys who have not been notified of its presence yet, but Privates Buchholz and Fletcher are much interested in the contents, and are watching for the money.

Owing to the uncertainty of the date of our departure from Camp Harvey, we have put up with a scarcity of many things. But it has been decided to do more for our men, and consequently a lot of dishes, table and kitchen utensils and general supplies have been ordered and received from Janesville. Rubbers and shoes have been issued to those who came unprepared for more than a brief stay in Milwaukee and are not in position to stand the prevalent wet weather.

Some of the Visitors.

Mrs. Captain Hanson arrived in camp this morning, and we are all very glad to see her, she being a very great favorite of the boys.

Ralph Saray is also a visitor in our quarters.

Lieutenant Bloedel has a twenty-four hours' leave of absence, which he will spend with his parents in Oconomowoc.

Considerable interest is taken by many of us in the chance of having Colonel Randall, U. S. A., appointed to the Wisconsin troops. We cannot hope for General Ruger, but would like, well, to see an old Wisconsin man in charge of this body of men, who will be a credit to their state.

BEFORE THE SUPREME COURT

Janesville Cases Engage the Attention of the Tribunal.

Before the supreme court at Madison today, local attorneys appeared in behalf of four cases of local interest that were on the calendar for today. The cases were as follows:

Mary E. Seleck vs. City of Janesville, Fethers, Jeffers, Elfield & Mont appearing in behalf of the plaintiff and City Attorney F. O. Burges and William Ruger for the defendant.

The New York Life Insurance Company vs. Ed. A. Loomis, Jr., et al was taken up, Ruger, Norcross & Ruger representing the plaintiff and Jackson & Jackson the defendants.

The injunction suit of Frank S. Baines vs. City of Janesville and the Chicago & North Western Railway company was also on the calendar, the plaintiff being represented by his attorneys, Sutherland, & Nolan and Danwidde & Wheeler, the city by City Attorney F. O. Burges and William Ruger, and the railroad company by Fish, Cary, Upham & Black.

The suit of Mary N. Burnham vs. John W. Norton impended with I. O. Brownell as administrator was also on the docket. This action is to compel Norton to account as trustee of an estate of the late Thomas H. Hills, Sutherland & Nolan appearing for the plaintiff and Jackson & Jackson for the defendant.

JONES TAKES ANOTHER RUN

Express Messenger Leaves Janesville for a More Important Post.

Morris Jones, the messenger for the American Express Company who has made Janesville his home for the past three years, and who was recently injured in the railroad wreck at Roscoe, Ill., has received a promotion which is no doubt in recognition of his narrow escape from serious injury. He has left for St. Louis, from which city he will take charge of a run to Springfield, Ill. Mr. Jones was a member of the Y. M. C. A. band, and his many Janesville friends will congratulate him on his well earned promotion, and at the same time will regret his departure.

SHOT HIS ARM NEARLY OFF

Painful Accident to a Young Farmer of Johnstown

George Gentle, a farmer residing near Johnstown, is at the Palmer hospital suffering from a badly fractured arm, the result of the accidental discharge of a shotgun which he was carrying.

Yesterday afternoon Mr. Gentle was plowing in his field, and carrying a shotgun for the purpose of killing crows that have become a great nuisance in the vicinity of his farm. The gun, which was loaded with buckshot, rested upon the plow handle. A jolt caused the weapon to slip, and the trigger caught upon the plow handle while the muzzle was pointed towards Mr. Gentle. The gun was discharged, the entire load striking him in the right arm pit and passing upward through the arm at the shoulder joint. Five of the shot passed entirely through the arm, coming out on top of the shoulder. The rest of the charge remained in the arm.

Dr. E. F. Woods was summoned and found Mr. Gentle suffering great pain. An examination of his wounds revealed the fact that the head of the bullet, the main bone of the arm, was completely shattered by the shot, and it was also fractured about one-third of its length from the shoulder by the concussion. After his injuries were dressed Mr. Gentle was brought to the Palmer hospital in this city. His arm will be practically useless for the remainder of his life even though amputation may prove to be unnecessary.

Fire Police Pass Through a Civil Service Examination

Like little soldiers, fifteen members of the local fire police company stood before the board of police and fire commissioners in this city and underwent a rigid civil examination yesterday. The questions put before the class were not what one would call difficult problems to solve, and the members lost but little time in replying. The examinations were in relation to the location of fire alarm boxes, streets, where the valuable merchandise of the city was located in the different stores etc. The equipments used by the fire police were also looked into.

The outcome of this examination is still to be determined by the following members, who constitute the board of commissioners, T. S. Nolan, W. S. Jeffers, J. P. Baker and V. P. Hubbard. Members of the fire police who are now on the anxious seat awaiting the outcome of the examination are:

C. D. Stevens, R. M. Bostwick, W. F. Taylor, S. B. Heddies, R. F. Cross, E. H. Helmstret, F. C. Lincoln, L. F. Worthington, R. J. Whitton, W. E. Evenson, Charles Atwood, G. M. McKelvey, P. S. Sheldon.

BARLEY BRINGS BIG MONEY

Large Increase in Price Due to the War-Like Conditions

Rock county farmers who haul barley into the city of Janesville these days are receiving from local buyers the highest market prices that have been paid here in some time. Two of the local buyers were paying today 46 cents a bushel.

Even at this high price many of the farmers are holding their barley back, believing that it will go still higher on account of the present war with Spain.

A prominent buyer who is well posted says that thousands of bushels of barley are now stored throughout the country awaiting a rise in price.

FROM MILWAUKEE ON BIKES

The Lange Brothers Make the Journey With Little Hindrance.

DESPERATE BATTLE SURE.

If Spain's Fleet Is Found There an Immediate Engagement Will Take Place—Want the Island as a Base of Naval Action.

Washington, May 6.—Admiral Sampson's fleet, consisting of the flagship New York, two battleships, two monitors and two cruisers, will be off San Juan, Porto Rico, this afternoon. It is the admiral's object to locate the four cruisers and three torpedo boat destroyers which left St. Vincent, Cape Verde Islands, last Friday, if they are in Atlantic waters. If he finds them at or off San Juan, there will be a great fight at once. If he does not find them, he will go to the Barbadoes and beyond. Somewhere in that vicinity, if he does not find the Venzia, Almirante Oquendo, Colon and Maria Teresa of the Spanish fleet, he will form a junction with the Oregon and the Mariotta, and return to Porto Rico. It is the hope of the officials of the navy department that Admiral Sampson will meet the Spaniards. Their whereabouts, however, is clouded in mystery.

Admiral Sampson has orders to take Porto Rico as a base of supplies, and will do so promptly, perhaps within the next three or four days. A military force will occupy the island after Admiral Sampson has captured it, probably under Gen. Merritt, and will be about 10,000 strong. Porto Rico is to become a permanent possession of the United States. It commands the Gulf of Mexico, and will be a valuable strategic point when the Nicaraguan canal is completed. It will be held as a war indemnity. The acquisition of the island is strongly urged in the senate, and the president is quoted as favoring the plan.

Considerable criticism is heard among members of congress over the nominations which were sent to the senate of the regular army officers to be brigadier generals. Many of the representatives and senators have urged upon the president the appointment of constituents to those commands, and are consequently disappointed that their friends' names were not upon the list. There are, however, many congressmen who have no personal interest in the matter who are opposed to the apparent determination to place regular army officers in command of the volunteer brigades to the total exclusion of civilians. No one, however, disputes the ability of the officers promoted, but the point is raised that considerable dissatisfaction will be manifested among the volunteer militia when the forward movement is made and they are placed under the command of strangers. The congressmen claim that where the quota of troops under the president's call entitles a state to two or more brigades, at least one of the brigadier generals should be selected from the national guard of that state. There yet remain four major generals and nine brigadier generals to be appointed, and the president may select for some of these positions men in private life.

TROOPS ARE SWORN IN.

Regulars at Camp Tanner—Coach Gets First Honors as Captain.

Camp Tanner, Springfield, Ill., May 6.—Capt. Couch, the senior captain of company L of the Fifth regiment, has the honor of being the first captain of the Illinois volunteers to be sworn into the service of the United States. He took the oath Thursday morning and immediately assumed command of his old company as a regular army officer.

Thursday four more companies of the Fifth regiment passed the examination of the surgeons and were enlisted in the service of the federal government. They were companies E of Hillsboro, I of Jacksonville, M of Canton and F of Quincy. About thirty-five members of the four companies were rejected, but it has been decided that none of the names shall be made public.

It is said that the regiment may be ordered to the front by Saturday, and that it may not be required to wait for the equipment which the government will send to this point as rapidly as it can be provided.

The appointment of the successor of Col. Washburne of the Fourth regiment has been made. The new colonel will be Casimer Andol of Beloitville, and it is said that the appointment gives general satisfaction to the men, and that there will be no further dissension in the regiment.

FIVE TO A COMPANY FAIL.

Examination of Indiana Militiamen Progresses at Indianapolis.

Indianapolis, Ind., May 6.—The work of examining the Indiana troops preparatory to muster progresses rapidly. At 6 o'clock last night ten of the forty-eight companies had passed examination. On an average five men to a company were rejected. Capt. May, the mustering officer, hopes to have the examinations all made by Saturday night, and the muster will then be made by regiments. Thursday's report to Gen. McKee showed that there were still 4,500 men in camp, more than enough to fill the state's quota. It was definitely announced that the volunteers would be sent to Washington as soon as the muster was finished. The old officers of the national guard are still unwilling to accept as final the announcement that the brigade staff officers as assigned under the national guard law the brigade hospital corps and the brigade signal corps will not be mustered into the service. Telegrams to Washington brought back the information that no provisions have been made for brigade officers.

Pingree as Commander in Chief.

Camp Eaton, Island Lake, May 6.—

Gov. Pingree is doubling his entire time to equipping the troops for the field. He hopes to have Michigan's brigade ready for the field the first of all state troops. The troops, through his efforts, are in better shape than ever before. It is announced that Gov. Pingree has received a telegram from Secretary Alger telling him that as soon as mustered in the Michigan volunteers will be ordered to the front.

Troops Will Sail Next Sunday.

Tampa, Fla., May 6.—Gen. Shafter has announced that he would give the newspaper men twenty-four hours' notice before leaving Tampa with the invading army for Cuba. He further intimated that his advance notice was not a thing of the immediate future. From what could be gathered from Gen. Shafter through those closest to him it is believed that Sunday has been named as the date of departure.

Approves McKinley's Course.

London, May 6.—At the next meeting of the Congressional union a resolution will be proposed regretting the war between the United States and Spain and expressing sympathy with President McKinley and the American people in their efforts to terminate speedily the injustice and persecution which have long been practiced upon Cuba by Spain.

High Rank for Miles.

Washington, May 6.—The movement to revive the grade of lieutenant general of the army and to confer that rank on General Miles has been revived recently, and is being pushed by the general's friends. It seems probable that something of the sort may soon be done, now that the army of the United States has been increased to such large proportions.

Examination of Wisconsin Men. Milwaukee, Wis., May 6.—At the rate the surgeons are now making in the examination of the men at Camp Harvey the work will not be concluded until the middle of next week. Arrangements have been made for transporting the rejected men to their homes, and they will be paid for the time that they have been in camp.

MRS. PINKHAM'S ADVICE.

What Mrs. Nell Hurst has to Say About It.

DEAR MRS. PINKHAM:—When I wrote to you I had not been well for five years; had doctored all the time but got no better. I had womb trouble very bad. My womb pressed backward, causing piles. I was in such misery I could scarcely walk across the floor. Menstruation was irregular and too profuse, was also troubled with leucorrhoea. I had given up all hopes of getting well; everybody thought I had consumption. After taking five bottles of Lydia E. Pinkham's Vegetable Compound, I felt very much better and was able to do nearly all my own work. I continued the use of your medicine, and feel that I owe my recovery to you. I cannot thank you enough for your advice and your wonderful medicine. Any one doubting my statement may write to me and I will gladly answer all inquiries.—MRS. NELL HURST, Deepwater, Mo.

Letters like the foregoing, constantly being received, contribute not a little to the satisfaction felt by Mrs. Pinkham that her medicine and counsel are assisting women to bear their heavy burdens.

Mrs. Pinkham's address is Lynn, Mass. All suffering women are invited to write to her for advice, which will be given without charge. It is an experienced woman's advice to women.
